

Luyben Process Modelling Simulation Solutions

In the 1950s *Corynebacterium glutamicum* was found to be a very efficient producer of l-glutamic acid. Since this time biotechnological processes with bacteria of the species *Corynebacterium* developed to be among the most important in terms of tonnage and economical value.

Industrial production of amino acids by coryneform ...

Control theory in control systems engineering is a subfield of mathematics that deals with the control of continuously operating dynamical systems in engineered processes and machines.
